YOU MAY NOT REALIZE IT, 
BUT WE’RE NEIGHBORS!

My family and I are grateful to be part of this community. Like many of you, we are proud to call this area our home. I hope all Gulf Coast residents feel a similar sense of pride and belonging. It’s my belief that all families deserve access to quality health care.

I am sure your goal is to stay healthy and away from a hospital or clinic. But should you need care, at Baptist Health Care you will receive quality care and feel confident in the skill and expertise of the people who provide it. Great care starts with compassionate people. For us, providing health care is personal.

We take a team approach to care by involving you, our own local experts and the resources available to us as a member of the Mayo Clinic Care Network to ensure quality care close to home. Our goal is to provide preventive care information to help you stay well and a high level of clinical care when your need is more serious.

I encourage you to experience the Baptist difference should you need medical expertise. Our culture is based on Christian values and driven by our Mission to help people throughout life’s journey. As a result of our patient- and family-centered culture and status as a not-for-profit health care provider, we have made a profound impact on thousands of lives.
